

STATION ROAD, HUNGERFORD

INDUSTRIAL UNIT REFURBISHMENT & SEPARATION

CONTRACT ADMINISTRATION

Building Type

Industrial warehouse

Client

Petchey Holdings Limited

Brief

Works included revitalizing a redundant Unit, transforming it into three separate spaces, each featuring a roller shutter door and warehouse space. The interior enhancements included the addition of new mezzanines, complete with WC facilities.

The Role

Collaborating closely with the client, Cornerstone produced a specification for the project. Oversaw the tender process and the appointment of the Contractor, regular inspections meant the progress of the works was closely tracked with site inspection reports through to completion.

Project Outcomes

The appearance and usability of the building has vastly improved, and in turn a redundant building has been let to multiple Tenants.
